## **New Jersey Pediatric Essential Health Benefit Orthodontic Policy and Required Documentation Chart**

### Orthodontic treatment general policies

I. No benefits will be paid for orthodontic services unless they meet the following criteria:

1. They have received a Prior Authorization.
2. They are Medically Necessary Orthodontic Services.
3. Medical necessity must be met by demonstrating severe functional difficulties, developmental anomalies of facial bones and/or oral structures, facial trauma resulting in functional difficulties or documentation of a psychological/psychiatric diagnosis from a mental health provider that orthodontic treatment will improve the mental/psychological condition of the child.
  - Orthodontic treatment requires prior authorization and is not considered for cosmetic purposes.
  - Orthodontic consultation can be provided once annually as needed by the same provider.
  - Orthodontic cases that require extraction of permanent teeth must be approved for orthodontic treatment prior to extractions being provided. The orthodontic approval should be submitted with a referral to the oral surgeon or dentist providing the extractions and extractions should not be provided without proof of approval for orthodontic service.
  - Initiation of treatment should take into consideration time needed to treat the case to ensure treatment is completed prior to 19<sup>th</sup> birthday (when the child will no longer be covered under this plan).
  - Periodic oral evaluation, preventive services and needed dental treatment must be provided prior to the initiation of orthodontic treatment.
  - The placement of the appliance represents the treatment start date.
  - Reimbursement includes placement and removal of appliance. Removal can be requested by report as a separate service for a dentist that did not start the case and requires prior authorization.
  - Completion of treatment must be documented to include diagnostic photographs and panoramic radiograph/view of completed case and submitted when active treatment has ended and bands are removed. Date of service used is date of band removal.

II. Comprehensive treatment for handicapping malocclusions of the permanent dentition. Case must demonstrate medical necessity based on a score total equal to or greater than 26 on the HLD (NJ-Mod2) assessment form (accessible at [www.deltadentalnj.com]) with diagnostic tools substantiation or based on a total scores of less than 26 BUT with documented medical necessity.

III. Request for treatment must include diagnostic materials to demonstrate need, the form (accessible at [www.deltadentalnj.com]) and documentation that all needed dental preventive and restorative or other services have been completed.

IV. Approval for comprehensive treatment is for up to 12 visits at a time with request for continuation to include the previously mentioned documentation and most recent diagnostic tools to demonstrate progression of treatment.
